## Premium Wall Cladding

### Premierbond HT • White

Hybrid MS polymer technology • Premium grade • 290ml cartridge  
Hybrid MS polymer technology • Premium grade • 600ml foil

**Product description:** Premierbond HT is a premium quality, professional adhesive based on hybrid MS polymer technology. With high tack properties, Premierbond HT has initial bond strength double that of most other grab adhesives and bonds to vertical applications. Premierbond HT is water, frost and heat resistant from temperatures of -40oC to +90oC. Suitable for interior and exterior use.

**Overall benefits • Shelf life:** 18 months  
• Curing time 24 hrs • Permanently flexible • High tack properties

### 2 part polyurethane • White

EC400 Part A - 6.5 kg / 5L bucket (water based adhesive on application)

**Product description:** A two-component polyurethane adhesive. The formulation has been designed to give ease of mixing for notched scraper applications. This filled adhesive has been formulated for the bonding of U-PVC and GRP sheets to most building substrates, including brickwork, plaster, concrete, blockwork etc.

**Overall benefits • Shelf life:** 6 months  
• Tough, long lasting resilient bond • Resistant to water, solvents and heats
